*EPA ICR#:* 1812.05

*OMB Control #:* 2020-0020

*Abstract:* Section 1414 (c)(3)(A) of the Safe Drinking Water Act (SDWA) requires that each state (a term that includes states, commonwealths and territories) that has primary enforcement authority under the Safe Drinking Water Act shall prepare, make readily available to the public, and submit to the Administrator of EPA, an annual report of violations of national primary drinking water regulations in the state. These Annual State Public Water System Compliance Reports are to include violations of maximum contaminant levels, treatment requirements, variances and exemptions, and monitoring requirements determined to be significant by the Administrator after consultation with the states. To minimize a state's burden in preparing its

annual statutorily-required report, EPA issued guidance that explains what Section 1414(c)(3)(A) requires and provides model language and reporting templates.

Fifty-five states (including Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and Navajo Nation) currently have primary enforcement authority under the Safe Drinking Water Act. The Navajo Nation was approved for primacy on December 6, 2000. Currently the State of Wyoming and the District of Columbia neither have primary enforcement authority nor are they seeking primary authority, so the number of 55 states is unlikely to change over the next three years of this ICR.

*Form Numbers:* None.

*Respondents/affected entities:* State, local and/or tribal governments.

*Respondent's obligation to respond:* Mandatory under Section 1414 (c)(3)(A) of the Safe Drinking Water Act.

*Estimated number of respondents:* 55 (total).

*Frequency of response:* Annual.

*Total estimated burden:* 4,400 hours (per year). Burden is defined at 5 CFR 1320.03(b)

*Total estimated cost:* \$317,684.95 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in the Estimates:* There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB.
